

Dinosaur Activity Guide

Need some new dinosaur math ideas?

We are very excited to let you know about our new dinosaur math packs. These packs **are not lesson plans**.

We have **26 dinosaur math activities** which you can **view** for yourself **below**, the instructions and printable pages will be available right after purchase!

View all 26 items included in our math pack below!

Activity 1: Dinosaur Counting Chip Cards

There are 10 pages of these cards, cut apart to make 20 game cards; instructions will be in math activity guide.

Activity 2: Dinosaur Cut & Paste Worksheets

These worksheets are for the younger preschoolers learning to count to number 4. There are 3 of these worksheets. Print worksheets onto copy paper and cut out the 4 numbers and give them to the child along with some paste or glue and have them glue the correct numbers into the boxes.

Activity 3: Match Up Activity

Instructions for this number match up activity will be in math activity guide.

This can also be printed out in black and white too and then color the dinosaurs blue.

Activity 4: Pick Up Sticks Game

Instructions for this number match up activity will be in math activity guide.

Same file used again, different activity than number 3.

Activity 5: Fun Number Activity

Instructions for this number match up activity will be in math activity guide.

Same file used again, different activity than number 2 and 3.

Activity 6: Dinosaur Lacing

Print out the page onto heavy paper such as white cardstock paper. You will need a hand held hole punch and punch a few circles around the outside edge of the circle. You will need a thick piece of yarn and you may want to tie one end to one of the holes so the yarn doesn't get lost.

When using yarn there is always a chance of strangulation be sure the yarn isn't too long and supervise the children closely with this activity.

To make the yarn like a needle so the children can push it through the holes you will now need tape the other end of the yarn to make it sturdy to use like a needle. Show the children how to lace the yarn through the holes around the seal.

This is a nice eye to hand coordination activity for preschoolers. Some other activities that offer this skill would be stringing beads, puzzles, cutting, nesting toys, pegs and peg boards (these are just a few) there are many other activities that offer eye to hand coordination.

Activity 7: Dinosaur - 12 Numbers In Circle

You will need 12 clothespins and white cardstock paper.

This activity can be printed out in black and white too and then color the dinosaur green.

This is a fun circle time activity game or can be used during math time or placed into your math area for children to do at a later time.

Print out the dinosaur card onto heavy paper such as white cardstock paper. This page can also be printed out in white only, the green dinosaur is also done in black and white if you want to print out the black and white page and then teacher can color the dinosaur.

You will need 10 clothespins. With a permanent marker teacher will need to write the number one onto one of the clothespins, repeat with numbers 2, 3, 4 up to number 12.

Activity 8: Number Match Up

Instructions for this number match up activity will be in math activity guide.

This activity can be printed out in black and white too and then color the dinosaurs blue.

Activity 9: Number Match Up With Play Dough

Instructions for this number match up activity will be in math activity guide.

Same file as number 8, different activity.

Activity 10: Dinosaur Color – Pompom Match Up

This activity can be printed out in black and white also and then color the dinosaurs.

Print out the dinosaurs onto heavy paper such as white cardstock paper. There are 10 dinosaurs, (blue, yellow, white, red, green, purple, pink, brown, black and orange).

Instructions for this activity will be in math activity guide.

Activity 11: Dinosaur Number Puzzles

Print onto white cardstock paper, there are two puzzles on each page, cut the puzzles apart, so you end up with 12 puzzles. Laminate the cards or cover with clear contact paper to make them durable.

The numbers will need to be cut away from the dinosaurs, carefully cut apart on the dotted lines, then have the children count the dinosaurs and match up to the number.

For younger preschool children you may want to print out two sets and cut one set apart and leave the other set whole, place some dots of Velcro onto the front of the puzzle board and onto the backs of the puzzle pieces (in same spots) so they will stick together as child places them onto the puzzle board.

Activity 12: Dinosaur Egg Number Match Up

Print out all 12 dinosaurs and all 12 eggs onto heavy paper such as white cardstock paper.

Instructions for this activity will be in math activity guide.

This activity can be printed in black and white too and then color the dinosaurs and the eggs.

Activity 13: Can You Help Mr. Dino Find The Yummy Leaves - Game

Print game onto white cardstock paper. Collect the leaves that you land on to give to the Mr. Dino at the end of the game.

Instructions for this activity will be in math activity guide.

Activity 14: Dinosaur Color Match Up

Print out the dinosaur color match up game cards and the matching dinosaur color cards onto white cardstock paper.

Instructions for this activity will be in math activity guide.

This activity can be printed out in black and white also and then color the dinosaurs.

Activity 15: Dinosaur Worksheet Cut & Paste

This worksheet has dinosaurs numbered 1 to 12.

Instructions for this activity will be in math activity guide.

Activity 16: Dinosaur Numbers 5 through 9 Coloring Page

Print out the page onto copy paper, you will need one page per child.

Instructions for this activity will be in math activity guide.

Activity 17: Dinosaur Numbers

Instructions for this activity will be in math activity guide.

This activity can be printed out in black and white also and then color the dinosaur yellow.

Activity 18: Dinosaur – Small, Medium & Large

This activity can also be printed out in black and white and then color the dinosaurs.

Print out the blue dinosaurs onto white cardstock paper and cut them out. Match them up to the small, medium and large page.

Or print out a few pages of the small, medium and large dinosaurs and have the children sort the dinosaurs into 3 piles (small, medium and large).

Activity 19: Dinosaur Numbers – Fine Motor Activity

Instructions for this activity will be in math activity guide.

Activity 20: Don't Wake The Dinosaurs Up – Game

You will need to print out the 12 blue dinosaurs.

This activity can be printed out in black and white also and then color the dinosaurs blue.

Instructions for this activity will be in math activity guide.

You will also need to print out the cube die to be used with the dinosaur game, print onto white cardstock paper.

Instructions for putting the cube die together will be in math activity guide.

Activity 21: How Many Dinosaurs?

These worksheets are for preschoolers learning to count to number 6. There are 4 of these worksheets. Print worksheets onto copy.

Activity 22: Play Dough Mats

Print out the play dough mats onto white cardstock paper, they have 12 squares on each mat that are different colors. The mats are blue, yellow, red, dark blue, green, pink and white.

You can print out the white play dough mat and color the squares instead of printing out the colored mats.

Instructions using this activity will be in math activity guide.

Activity 23: Trace The Number

Print onto copy paper, you will need one per child. Have the children trace the numbers and color the dinosaur.

Activity 24: Twelve Big Dinosaurs - Rhyme

Print out the rhyme onto copy paper and hole punch down the side of the pages on the left hand side and loose tie the pages together, or staple down the left hand side (not recommended if children under 3 will be handling this).

Print out one copy and use for the classroom or print out one for each child and have them color the pages.

If you do only one book for the classroom, have the children take turns coloring the pages and writing their names on the pages they colored so later when you read the rhyme to the children they can look at the page that they and their friends colored.

All of the items listed below are in order and are in the dinosaur printable pages 2 file.

Activity 25: How Many Dinosaurs Worksheets

There are 2 worksheets counting up to 6. Print out the worksheets onto white copy paper.

There are also 2 more worksheets for older preschool children that are counting up to the number 12. There are 2 worksheets with dinosaur eggs for the children to count and circle the correct number.

Activity 26: Numbers 1 – 12 With Circles

Print out the numbers onto white copy paper and have the children color the numbers, they may want to put circle stickers onto the circles on the number or reinforcement labels onto the circles.

The dot stickers or reinforcement stickers can be found at Wal-Mart in the office

section or any office store.

You may want to have the children use a (do a dot paint marker) and have them dot the circles on the numbers.

There are 12 numbers.

Thank you for looking at our free sample!

All 26 items shown above are in our math pack for 9.99 on sale for half price 3 days only for 4.99

These packs are great for extra ideas to use during your dinosaur theme for your math activities.

We have a guide that will let you know how to use each of the math activities, the printable pages that go along with the guide are in the other 2 files. So there is a total of 3 files to download.

Most of the color activities can also be printed out in black and white, to help you save on color ink printing cost.

If you are looking for lesson plans and not for math ideas, then please check out our lesson plans at www.adaycare.com and click on young toddler, toddler or preschool and you will taken to our curriculum based lesson plans.

Please check back often as we will be **adding more math packs** for other themes such as birds, apples, pumpkins, farm animals, zoo animals, hibernation, bugs, etc.

We will also be making **literacy packs** for different themes such as ocean, bugs, birds, apples, pumpkins, farm animals, zoo animals, etc.

We hope you enjoy our new printable dinosaur math pack.

We also have lesson plans available for infants, young toddlers, toddlers and preschool.
